AirBerth
BOAT LIFT STORAGE SYSTEMS

Ultimate boat protection for salt and fresh water mooring

Full protection for the life of your boat

You wouldn't park a Ferrari in the street so why would you leave your boat in the water? AirBerth is the revolutionary way to keep your boat out of the water without the hassles of towing, launching, mooring and cleaning. It simply attaches to your current pontoon or marina berth giving you instant access to your boat anytime.

Drive your boat onto the submerged AirBerth and simply secure the positioning ropes to your boat...

Attach hoses from the portable Blower Box to the air control, which commences the displacement of water from the primary floats...

Within minutes, the boat will centre itself, the AirBerth will shape to your hull and totally rise above the water...

Your boat is now safely stored and you can climb on and off the boat with improved stability.

It's so easy to use...

Now your boat is free from the harmful elements until the next time you want to go boating.

Now that's peace of mind!

Not only is AirBerth easy to operate, it is also durable. Unlike similar metal boat lifts which will deteriorate in the marine environment, the materials used (High Density Polyethylene) in the manufacture of AirBerth are designed for 50 years life. This plastic is corrosion resistant to salt water and non-abrasive to fibreglass boat hulls. In fact AirBerth is totally friendly to the marine environment.

Using the AirBerth Boat Lift will:

- Enhance your boating lifestyle
- Eliminate the need to anti-foul your boat
- Minimise electrolysis and osmosis
- Preserve the value of your boat

In addition, the AirBerth Boat Lift is designed for portability, as it is not hard mounted to the pontoon or the marina berth. It is also versatile and can be installed in any marina configuration. In normal circumstances, installation will take a few hours and requires no piling or construction to the site.

No longer will you have to worry about your prized possession deteriorating between uses. With the AirBerth Boat Lift, your boat will be ready for immediate use, prove more reliable and above all, preserve your boating investment.

The AirBerth Boat Lift is truly the new standard in boat lifts!
